Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 18 and 19, drawn to the method of playing a card game, classified in class 273, subclass 292.
 - II. Claims 1-17, drawn to a pack of playing cards, classified in class 273, subclass 304.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the pack of playing cards can be used to play Blackjack or Poker.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. During a telephone conversation with William Bergman on 03/04/05 a provisional election was made with traverse to prosecute the invention of the pack of playing cards, claims 1-17. Affirmation of this election must be made by applicant in replying to this Office action. Claims 18 and 19 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-6, 8-10 and 12-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Jannersten.

The patent to Jannersten discloses a pack of playing cards having all the features recited in claims 1-6, 8-10 and 12-17, see Fig. 1 and 2. The first indicia (numerical value) and second indicia (suit) are clearly placed at the primary corners, secondary corners, top edge, bottom edge, left edge and right edge as recited in the claims. Note, Fig. 3 illustrates that the first indicia and second indicia are judiciously placed to lessen both precision of vertical columnar alignment and columnar length.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 7 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jannersten as applied to claims 1 and 9 above, and further in view of Friedman 647'.

The design patent to Friedman 647' cited by the Applicant in an IDS, teaches that it is known in the playing card art to enlarge the indicia on the edges of the playing

cards. Note, the title of Friedman 647' is "....High Visibility Playing Cards". In view of such teaching it would have been obvious to a person having ordinary skill in the art to enlarge the first indicia and second indicia on the edges of Jannersten's playing cards in order to make the indicia more visible to players with impaired vision.

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Hofman, Nielsen, Roberts and Stauff (cited by the Applicant in the IDS) all disclose first indicia (numerical value) and second indicia (suit) on the primary corners, secondary corners, top edge, bottom edge, left edge and right edge of the cards.
